### SmartEquip Welcomes Curry Supply Co. to the Network.

**Norwalk, CT, May 29, 2018** - SmartEquip is excited to announce the addition of Curry Supply Co. onto their supplier network. This partnership will allow owners of Curry Supply Co., one of the largest manufacturers of commercial service vehicles, to offer their products and streamline the procurement process, thus reducing downtime and increasing wrench time for their fleets.

"We are thrilled to be a part of the SmartEquip Network to provide our fleet customers with fast and efficient access to our parts and support. Curry Supply is committed to providing solutions that make our customer's lives easier and we feel SmartEquip shares these same values and goals," says Jason Ritchey, President, Curry Supply.

"SmartEquip is committed to growing our Supplier Network and we are pleased to add Curry Supply to our Network." Adds Executive Vice President, Ron Piccolo, "This partnership will allow access to one of the largest manufacturers of commercial service vehicles and will help fleet owners generate more profit from their equipment."

#### About Curry Supply Co.

A third generation, family-owned business that was established in 1932, Curry Supply has grown to be one of the largest manufacturers of commercial service vehicles. Curry Supply is headquartered in Pennsylvania and has a facility in Texas. Each of these locations brings with it manufacturing, sales, engineering, field service, and customer service capabilities. Curry Supply

offers a range of products and provides customer's a one-stop-shop when building their own fleet of proven service vehicles.

## **About SmartEquip**

SmartEquip is the leading global standard for process improvement in rental and other equipment centric industries. The SmartEquip network connects fleet owners to manufacturers and their dealers with real time access to critical parts and service information. It helps fleet owners generate more profit from their equipment by automating and accelerating the service workflow, increasing asset availability and revenue. The network streamlines the service process, eliminates order errors, improves technician wrench-time and greatly reduces equipment down time. SmartEquip currently supports more than 350 OEM/Supplier brands, with over 40,000 users across more than 4,000 locations across North America and Europe. SmartEquip recently surpassed \$2.1 billion in transactions and is staffed by veterans of the construction and software industry. SmartEquip drives the fleet performance that grows profitability. SmartEquip. "Be Ready".
